JUSTICE

My heart was cloven and there appeared a flower,
and grace sprang up with fruit from the spirit,
for the highest One split me with the holy spirit,
exposed my love for the totality and filled me with divine love.

The splitting of my heart was my salvation,
and I followed the way of peace, the way of truth.
From beginning to end I received greater knowledge
I sat on the rock of truth where I came to rest.

LADY JUSTITIA

MA'AT THE SPIRIT OF TRUTH : PATH 22 XXII

You look to understand the universe's rules and discern all things in the light of the cosmic (or natural) laws, balancing forces. On this path, you know all things eventually return into balance and equilibrium. You are JUSTICE, *a faithful intelligence*, **remove all judgments (or persecutions) and be honest with your heart; you have become truth. You understand there are always out-turns for your actions, and any pressure weighing your heart down is your compass to stay on your path and live and speak the truth compassionately and lovingly. Discover and know what weighs your heart down and stand for the love of truth. Be artfully diplomatic and peaceful with yourself and with others in this process.**

I am able to distinguish clearly the true from the false. I take charge of my life, and I face the issues in my life with honesty. I am the spirit of Ma'at capable of listening and acting accordingly with my heart; I am Justice!

ALCHEMY OF LIBRA

THE BALANCING POWER OF "WE ARE"

The Scales in the sky represent the weighing of the forces of duality in our own lives and the relationships we cultivate. Eventually, all things must return to a balance where we will all have to reap what we sow. The spirit of truth and justice will always have her day.

Mythos - The Scales of Libra is the only inanimate object of the Zodiac. In ancient times the constellation was referred to as the Eagle's claws (essentially the claws of Scorpio); perhaps referencing the energy of divine retribution or the distribution of fortune, otherwise known as Nemesis sister of Themis, the goddess of Reckoning, who distributed just punishment for arrogance and pride. Themis herself represents the goddess of Divine Law and Order; she is the Lady of Good Counsel and organizer and director of communal affairs. She provides the rules and laws that govern society, that we may live by and her six children who judge and shape our futures; Morality (Dike), Order (Eunomia), Peace (Eirene), the Weaver (Clotho), the Lot-Caster (Lachesis), the Inevitable (Atropos). Themis later became known as the Roman God Justitia. Today, her statues in courthouses and law offices are depicted as a woman with a blindfold and a sword while holding the scales of truth.

1. What House(s) does LIBRA rule in your natal chart? What does this mean to you?

KEY SEARCH PHRASE "Libra in the <number> house"

SEPTEMBER 23RD - OCTOBER 22ND

Libras' weight is substantial, for it is the scale of the people's heart feeling and knowing that cooperation and diplomacy are vitally important to creating a vibrant and functioning society. Convincingly they will get you onboard by using the power of facts and intelligence to sway you to choose a path of least confrontation. Although they disdain injustice and conflict, they will always advocate solving problems in a rational and non-violent way. Often Libra energy can cause a fear of being alone, and such people would do well to partner or marry in life (two is better than one for them). With Venus, the Goddess of love influencing the energies they value and tend to be patrons of the arts surrounding themselves with beautiful creations, music, art, poetry and philosophy. Ultimately, Libra wants us to embrace a balanced and fair society.

Libra power is a Cardinal energy (loves to start things and rushes through them) - cooperative, diplomatic, gracious, fair-minded, social, intelligent, romantic and optimistic. When living in duality, they can be indecisive, especially when all the facts need examining. They can also carry grudges, which may lead them to avoid confrontations, thereby experiencing self-pity and loss. Although their convictions are heavy, they prefer to be light of heart and require a place of non-judgement, peace and tranquillity, always working to achieve equilibrium. Advocating for others and making sure everything is fair is part and parcel to Libra!

WORKING THE PATH

MORNING

Face the EAST direction with the JUSTICE card and your SHATTUCKITE stone. Place a drop of VENUS OIL in your hands and smell the scent then recite the opening call;

I call upon the Great Spirit of All. May your grace descend upon me and awaken me to the power with-in; to your divine purpose and glory. May I find knowledge and understanding. In return I reach out into the world to transform this Earth into your majesty. ***I now call upon the power of JUSTICE and LIBRA to open my awareness of my actions with my words and to speak when called. May I stand in truth through the power of love. I carry with me the power of SHATTUCKITE to facilitate this transmutation.*** *May my heart be open and true. May the will of your Great Spirit always be, I commit myself to the great work, so be it (amen).*

Now with your stone in the palm of your hands follow the posture for the SAT KRIYA and repeat the mantra SAT NAM, "truth is my essence, truth is my name"! Do this exercise for a minimum of three minute or longer in the morning. When you are done recite the affirmation below;

I am able to distinguish clearly the true from the false. I take charge of my life, and I face the issues in my life with honesty. I am the spirit of Ma'at capable of listening and acting accordingly with my heart; I am Justice!

Bow to the power of the EAST honouring the power of the AIR and the power of the JUSTICE card and LIBRA. Record any insights, synchronicities or dreams in your journal or share them on the Facebook page.

MA'AT THE GODESS OF TRUTH

To the Egyptian mind, Ma'at bound all things together - by an indestructible unity. The universe, the natural world, the state, and the individual were all seen as parts of the more extensive order generated by Ma'at. It embraced all aspects of existence, including the fundamental equilibrium of the universe, the relationship between constituent parts, the cycle of the seasons, heavenly movements, religious observations and fair dealings, along with honesty and truthfulness in social interactions. Ma'at appears with the feather of truth on her head. Her feather of truth is used in the weighing of the heart ceremony to see if one's heart is as light as a feather. If one's heart was equal to the feather of truth, access was granted to the afterlife, and if not, the soul was returned to the cycle of death and rebirth. Thoth was described as the one "who reveals Ma'at and reckons Ma'at, who loves Maat and gives Maat to the doer of Ma'at."
